Subject: Interim Certificate to Operate (ICTO) for the USTRANSCOM IP over FDMA.

1. In accordance with the authority provided by reference, the Interoperability Test Panel (ITP) have reviewed and concurred with your request for an Interim Certificate to Operate (ICTO) with respect to the USTRANSCOM IP over FDMA. The ITP bases the concurrence with this ICTO upon your identified urgent operational requirement to field this system.
2. The ITP Chairman concurs with recommendations of the Joint Interoperability Test Command (JITC) and the ITP members, and grants an ICTO for use of USTRANSCOM IP over FDMA while completing interoperability certification testing. This ICTO is effective beginning 15 July 2004 and expires on 30 July 2005. The Air Force must provide a systems status update to the ITP at the July 2005 ITP meeting to further extend this ICTO.
3. This ICTO is subject to the following conditions:
 - a. The Air Force is to complete the ISP for this system, submit it for JS approval, and complete joint interoperability certification testing.
 - b. If, at the end of this ICTO, USTRANSCOM IP over FDMA has not been joint interoperability certified, The ITP will consider it a candidate for removal from operational use.
